

Pink Panther Amigurumi Pattern

My friend from work wanted me to make him the Pink Panther after seeing my other creations.

Apparently his daughter really loves him and he wanted to give her the doll as a gift.

Anyway, it was a bit challenging to make this character since the Pink Panther is an iconic character and really difficult to emulate with crochet. Anyway, I think he turned out well.

Unless otherwise stated, work in continuous rounds. Also, I assume

that you have basic knowledge in crochet. If not there are many tutorials on YouTube. Good luck!

Materials Required:

- Black, Light Pink, Pink, Dark Pink, and Yellow coloured yarn
- Fibrefill
- 3.5mm (E) hook
- Yarn needle
- Safety Eyes

Assembly:

- 1) Attach the head to the body with the tail from the head. I just weaved in and out of each piece with the tail. Ensure the neck is attached where the head narrows to form the snout. Firmly stuff the neck before completely sewing the opening close.
- 2) Using the safety eyes, insert them into the centre of the yellow eyes created with yarn. Stuff them lightly and position them above the snout on the head (see picture). It may help to pin the pieces to the head first to position them correctly. Use the tail of the eyes to sew them to the head.
- 3) Attach the eyebrows above the eyes at a diagonal (see picture). Using the tail from the eyebrows to sew them to the head all the way around.
- 4) Attach the nose to the front of the snout using the tail from the piece. Center the nose on the top part of the snout, covering more of the light pink portion than the dark pink portion. To get the correct shape for the nose you will need to sew it into the correct position. I found pinning the nose into the triangular shape first helped me sew it down properly. Lightly stuff the nose before sewing the opening closed.
- 5) Attach the ears to the top of the head. Pin them into the position on the top side of the head (see picture). Sew them on with the yarn tail.

- 6) Using the dark pink yarn, embroider a mouth. I used surface crochet to create the smile.
- 7) Use black yarn to create whiskers. I made a huge knot on the inside of the snout and pulled the whisker through. There are 3 whiskers on either side.
- 8) Attach the arms to the body with the tails from each piece. I used a whip stitch again. Pin all the limbs in the desired position before attaching. Ensure to squish down the top of the arm to shape the shoulder.
- 9) Attach the feet to the bottom of the legs with the yarn tail. Ensure to stuff the legs firmly before closing the opening.
- 10) Attach the tail to the back of the doll. Ensure the tail is in the middle bottom of the doll.
- 11) Attach the stomach patch to the front of the doll. Position the wider portion of the stomach at the bottom. Use the tail to attach the stomach match all around.
